the *place* for life

Green ON!

Celebrate
Your Greening
Commitment
With Your
Community and
Your Customers.

You can make an impact.

Our community has felt the impacts of climate change and we need to find ways of building resilience. Tree planting is identified as one of the most important weapons in the fight against climate change.

But did you know that our region has one of the lowest percentages of forest cover in Ontario? **Since 1973, we have planted over 6.5 million trees, and increased our natural area cover from 3% to 8.5%.**

We want to do more, but with recent cuts to tree planting programs across the province, there is a critical need to come together fight back against climate change.

To reach our community goal of 12%, we need your help to increase the scale, scope and intensity of our efforts.

Partners in Sustainability

You have the opportunity to be a hero.

Does your business believe in a cleaner and healthier environment that will improve the quality of life for your employees, customers, and community?

If you answered yes, the Essex Region Conservation Foundation wants you as a Partner in Sustainability.

We are inviting business partners - big and small - in the #PlaceforLife to consider making a donation per unit of your product or service to support tree planting and restoration in our region.

Become a Partner in Sustainability.

Becoming a Partner in Sustainability will allow you to demonstrate your corporate social responsibility to your customers, employees and community.

It will also allow the entire Windsor-Essex region to come together to ensure a future of environmental sustainability for our region.

- Be able to promote your organization as one which is committed to environmental sustainability in the Place for Life.
- Contribute to a healthier environment for your family, employees, and customers.
- Be promoted by our organization as a business committed to environmental sustainability.

“Climate Change is the defining issue of our time, and we are at a defining moment”

*António Guterres,
United Nations Secretary General*
